The polishing and maintenance oil **„NIROSTOL 55“** is highly refined, crystal clear white oil, which contains no impurities. It is manufactured according to specifications of purity, which are sharper than the requirements of most pharmaceutical books.

„NIROSTOL 55“ is food-safe and can be used in accordance with the respective applicable national laws and other relevant rules in applications with and without direct contact with food. It meets the requirements of USDA H1 approval.

Characteristics:

- water bright, crystal clear
- odourless and tasteless
- good colour stability of heat and light exposure
- good oxidation stability
- not hygroscopic

„NIROSTOL 55“ is used primarily in the following industrial branches:

- as a lubricant for certain machinery and equipment in the food industry, for example if the danger exists that the lubricant come into contact with the processed goods,
- as technical aids in the manufacture of certain packaging parts,
- for the food and gourmet food industry,
- for cleaning and maintenance of instruments, devices, surfaces, etc. of stainless steel.
